NARRATIVE

This survey was performed at the request of Moon Lake Electric Association for the purpose of creating the parcel of land shown on this plat. Section 31 was originally surveyed by the General Land Office using the "three-mile" method during which the sixteenth corners were set. The corners along the south line of the section were found as indicated and used to determine the position of the Northwest Corner of the SW1/4 of the SW1/4 as per ties from a previous survey. The parcel was then staked and described as shown on this plat.

SURVEYOR'S CERTIFICATE

This is to certify that I have surveyed the parcel of land shown on this plat, and that the monuments indicated were found or set during said survey, and that this plat accurately represents said survey to the best of my knowledge.
